

Anurag University Strengthens Global Academic Ties with Arizona State University

Category: Business

written by International Khabar | April 22, 2025

Anurag University has strengthened its strategic academic partnership with Arizona State University (ASU), expanding global education pathways for Indian students. Through this collaboration, students can pursue Bachelor's or Master's degrees in Computer Science, Engineering, Business, or Management. Students will commence their academic journey at Anurag University International College in India before seamlessly transferring to ASU in the United States to complete their degrees.

This partnership enhances access to international education, fosters cross-border collaboration, and equips students to thrive in an increasingly [globalized world](#). Offering a clear and affordable academic route, it empowers students with international exposure while ensuring a smooth, cost-effective transition to the United States – enabling savings of up to 40% on the total cost of earning a globally recognized ASU degree.

This was announced by Anurag University & Arizona State University at a stakeholder interaction session attended by representatives from the U.S. Consulate, Education USA, principals and counsellors from leading international schools in Hyderabad. This event showcased the opportunities created through this collaboration and its potential to shape the academic and professional futures of Indian students.

The presence of officials of U.S Consulate General in Hyderabad served as a platform to recognize the growing U.S – India educational ties.

Key Messages from the Session

- **Dr. Palla Rajeshwar Reddy, Chairman, Anurag University:** This partnership exemplifies our commitment to offering high-quality global education opportunities that are both accessible and transformative. By providing our students with direct pathways to ASU, we ensure they have the tools to succeed on a global stage.
- **Chris Johnson, Senior Director, Global Partnership Development, ASU:** This is more than a partnership – it's a powerful alliance for global innovation. ASU and Anurag University are breaking barriers and building the future together. What starts here isn't just change – it's transformation on a global scale.

The collaboration underscores the increasing demand for internationally recognized, affordable education in India and presents an important opportunity for students to access world-class academic experiences while optimizing education costs.

About Arizona State University

[ASU](#) is the largest public university in the United States under a single administration. In a given year, the university enrolls more than 181,000 students, including more than 16,000 international students.
