

Porunai Hospitals Now in Tirunelveli: Advanced Cancer Care for South Tamil Nadu

Category: Business

written by International Khabar | February 20, 2025

A modern 200-bed multispecialty Porunai Hospitals was inaugurated in Tirunelveli by Honorable Minister Ma. Subramanian, Minister for Health, Medical Education and Family Welfare, Government of Tamil Nadu, marking a significant advancement in South Tamil Nadus healthcare system.

The Elekta Versa HD – South Tamil Nadus first advanced radiotherapy system for cancer care at Porunai Hospitals

The hospitals facilities include an emergency room, USG-assisted catheter lab for interventional cardiac procedures, an automated centralised laboratory, a 30-bedded ICU with ventilator support for all the beds, and two 24/7 ICU-ventilated ambulance services.

However, Porunai Hospitals' cutting-edge radiation therapy department is what makes it unique. It features the sophisticated Elekta Versa HD system with a Hexapod couch, previously available only at some speciality hospitals in Chennai. This advanced system has now brought state-of-the-art stereotactic radiotherapy capabilities to Tirunelveli, which people across South Tamil Nadu can now avail.

*“The Elekta Versa HD system represents a significant leap forward in cancer care for our region,” says **Mr. Kannan R, Managing Director**. “This technology allows us to deliver highly targeted radiation therapy with unprecedented precision, particularly beneficial for patients requiring*

Stereotactic Radiosurgery (SRS) and Stereotactic Body Radiotherapy (SBRT). Previously, patients had to travel to Chennai for this treatment, but now this advanced care is available right here in Tirunelveli."

The Versa HD systems capabilities include

- Accurate stereotactic radiation treatment for complex tumors
- Aid in Active Breath Control (ABC) technique during the therapy
- Highly targeted treatment with minimal impact on surrounding healthy tissue
- Reduced treatment time and improved patient comfort
- Advanced imaging for accurate treatment delivery

This technology particularly benefits patients with

- Brain tumours requiring precise targeting
- Early-stage lung cancer
- Liver tumors
- Other conditions requiring high-precision radiation therapy

For patients in South Tamil Nadu, this means

- Access to world-class cancer treatment locally
- Reduced travel time and expenses
- Shorter treatment durations
- Better treatment outcomes

The hospitals comprehensive healthcare infrastructure, combined with this advanced radiotherapy system, positions Porunai Hospitals as a premier healthcare destination in South Tamil Nadu, offering hope and healing to cancer patients who previously had limited access to such sophisticated treatment options.
