

# Resolute Appoints Dr. Gurmeet Soni Bhalla to Shape the Future of Prevention, Wellbeing & Longevity at Resolute

Category: Business

written by International Khabar | January 27, 2025

Resolute, an innovative health intelligence platform combining advanced AI, diagnostics, and behavioral science, today

announced the appointment of Dr. Gurmeet Soni Bhalla to a key leadership role. With over 25 years of clinical expertise, Dr. Bhalla will help bridge the gap between traditional medicine and AI-driven health optimization, advancing Resolute's mission to transform how people understand and improve their health.

**Dr. Gurmeet Soni Bhalla**

Dr. Bhalla brings comprehensive expertise spanning pediatrics, immunology, and preventive medicine, with specialized training from KMC Manipal, the National Board in [New Delhi](#), and Savita Medical College, Chennai. Through leadership roles at leading hospitals in Bangalore such as Wockhardt, Fortis, and Rainbow

Children's Hospital, she has consistently [advocated](#) for a more integrated, preventive approach to healthcare.

*"Medicine is evolving beyond the traditional model of treating illness to a new paradigm of optimizing [health](#),"* said **Dr. Gurmeet Soni Bhalla**. *"The rising burden of chronic diseases and increasing [health](#) awareness are driving us toward Medicine 2.0 – where prevention is as critical as treatment. By combining clinical expertise with AI-driven insights, we can identify risks early and implement personalized interventions that truly enhance quality of life."*

### **Advancing Medical [Innovation](#)**

In her role at Resolute, Dr. Bhalla will focus on creating frameworks where medical expertise and AI [technology](#) can work synergistically to deliver better health outcomes. Her six-year journey in longevity medicine aligns perfectly with Resolute's mission to optimize not just lifespan, but healthspan – the years of life spent in good health.

*"The future of [healthcare](#) lies in this convergence of preventive medicine and technology,"* **Dr. Bhalla** emphasizes. *"Through Resolute's AI-powered platform, we can now analyze trends, predict [health](#) risks, and create personalized intervention strategies at scale. This isn't just about preventing disease – it's about empowering individuals to achieve their optimal state of [health](#)."*

### **[Shaping the Future](#) of Health**

*"Dr. Bhalla's appointment marks a significant step in Resolute's evolution,"* said **Srinivasa Vivek, Co-founder of Resolute**. *"As we push the boundaries of health intelligence through AI and advanced diagnostics, her deep clinical expertise will help us ensure our [innovations](#) translate into meaningful health outcomes. Together, we're working to make sophisticated [health](#) optimization accessible and impactful for everyone."*

The collaboration between Dr. Bhalla and Resolute represents a shared vision for the future of health – one where cutting-edge [technology](#) and medical expertise combine to create personalized, proactive health solutions. Dr. Bhalla's experience in implementing preventive health strategies will be crucial in developing Resolute's evidence-based protocols and ensuring that [technological innovations remain grounded in sound medical science](#).

## **About Resolute**

Resolute is reshaping health intelligence by seamlessly integrating advanced AI, precision diagnostics, and behavioral science to transform how the [world](#) achieves healthspan and longevity. Through hyper-personalized [health](#) journeys and evidence-backed protocols, Resolute empowers individuals to move beyond basic wellness to achieve their full health potential.
