written by International Khabar | February 11, 2024

Introduction

[World Unani Day](#) is celebrated on February 11 each year to honor the birth anniversary of Hakim Ajmal Khan, a prominent social reformer and esteemed Unani scholar. His contributions to the field of Unani medicine in India have been invaluable, making this day a significant occasion for acknowledging and appreciating his legacy.

The Life and Work of Hakim Ajmal Khan

Hakim Ajmal Khan was born on February 11, 1868, in Delhi, India. He belonged to a family of renowned Unani physicians

and grew up with a deep understanding and passion for traditional medicine. He dedicated his life to the promotion and development of Unani medicine, which is based on the principles of the ancient Greek physician Hippocrates.

Throughout his career, Hakim Ajmal Khan worked tirelessly to establish Unani medicine as a respected and recognized form of healthcare. He played a pivotal role in the establishment of the Central Council for Research in Unani Medicine (CCRUM) and the Central Council of Indian Medicine (CCIM), which have been instrumental in advancing the practice of Unani medicine in India.

Hakim Ajmal Khan's efforts were not limited to the field of medicine alone. He was a social reformer who actively worked towards the upliftment of marginalized communities and the promotion of education. He founded the Jamia Millia Islamia University in Delhi, which has since become a prestigious institution known for its academic excellence and commitment to social justice.

The Significance of World Unani Day

World Unani Day serves as an opportunity to recognize and celebrate the contributions of Hakim Ajmal Khan and other Unani scholars who have dedicated their lives to the advancement of this traditional form of medicine. It is a day to raise awareness about the benefits and effectiveness of Unani medicine and its role in promoting holistic well-being.

Unani medicine is based on the principles of balance and harmony in the body, mind, and spirit. It utilizes natural remedies, herbal medicines, and dietary interventions to restore and maintain health. With its roots in ancient Greek medicine, Unani medicine has a rich history and has been practiced for centuries in various parts of the world.

Observing World Unani Day

On World Unani Day, various events and activities are organized to promote awareness and understanding of Unani medicine. These may include seminars, workshops, public lectures, and health camps where people can learn about the principles and benefits of Unani medicine.

Healthcare professionals, practitioners, and researchers in the field of Unani medicine come together to share their knowledge and experiences. They discuss the latest advancements in Unani medicine and its potential in addressing contemporary health challenges.

Additionally, this day provides an opportunity to honor the achievements of Hakim Ajmal Khan and pay tribute to his enduring legacy. It is a time to reflect on his contributions to the field of medicine and his unwavering commitment to social reform.

Conclusion

World Unani Day is a special occasion that commemorates the birth anniversary of Hakim Ajmal Khan and celebrates his remarkable contributions to Unani medicine and social reform. It is a day to acknowledge the significance of Unani medicine in promoting holistic well-being and to recognize the efforts of all those who have dedicated themselves to its practice and development.

As we observe World Unani Day 2024, let us remember Hakim Ajmal Khan's legacy and continue to promote and support the growth of Unani medicine for the betterment of individuals and communities worldwide.
